

LMPL04/07/001 Timber Sleeper Planter

Above. Shown in treated softwood

Description

Our timber sleeper planters are a fantastic way of showing off shrubbery or creating attractive boundaries between areas. Crafted from pressure-treated FSC-certified softwood slats our planters are built to stand the test of time and look fantastic doing it. This simple and sturdy planter is constructed from large profile softwood sleepers. Higher versions are reinforced with steel corner section and internal bracing.
