

Making it your choice . . .

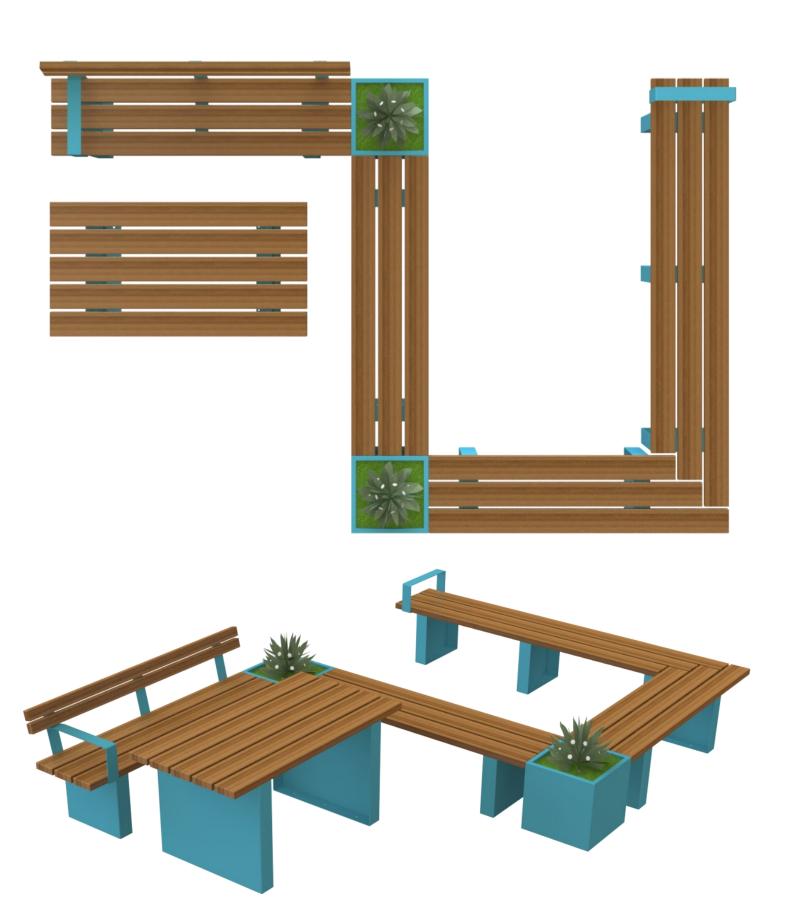

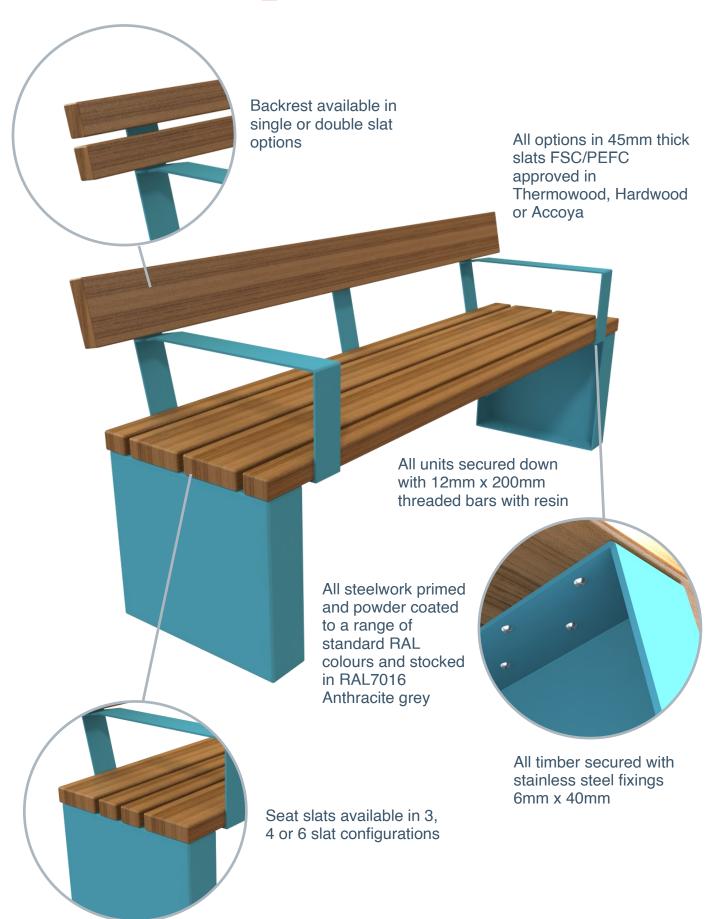

Modulo collection is characterized by emphasizing the value of wood, by wooden slats of 45mm thickness, supported by pre galvanised steel sheet. The combination of both materials results in a design system which allowed us developing the backrest bench model, bench without backrest and the backrest / armrest version as well. A whole set with great versatility in outdoor spaces, which also works individually, and thanks to its wide range of finishes and colours, integrates its comfort at any park area, promenade and urban avenue.

Bench with sheet steel structure and solid wood seat.

Modulo Bench: L 1800 x 465 x 450 Modulo Seat: L 1800 x 535 x 771

Modulo Seat W/ arms: L 1800 x 535 x 771 Modulo Table: L 1800 x 785 x 750

Materials and finishes:

Structure of pre-galvanised steel sheet with antirust epoxy powder primer and powder coating; available in any RAL colour, polyester-based paint, thicker than 80 microns (ISO 2630) and resistant to UV radiation or other climatic influences. Additional option in shotblasted Corten steel sheet.

Wooden seat in PEFC [™] Thermowood / Accoya with a natural finish or FSC® certified Iroko hardwood also with a natural finish. Stainless Steel 6 x 40mm screws throughout.

Installation:

For installation, there are 14mm holes for anchoring embedded bolts into the pavement. Use M12 anchors into suitable surface.

Maintenance:

Clean the metal parts using clean water only. If necessary, with a little neutral cleaning agent (pH 7) and soft non-abrasive cloths or cloths.

The wooden seat can be replaced if necessary. Wooden colour can be maintained by applying any type of existing product in the market for this purpose.

* Only stocked in this colour
