# Modular Planters 600

The Modular Planter 600 series arises with the intention of providing the space with that which is essential and permanent. Designed from a machined, folded and welded metal sheet, the elemental character of this series makes it a family with a special capacity for aggregation. This quality allows its use to be extended to environments with a unique historical context, susceptible to the emergence of certain materials or forms. It is manufactured from Aluminium sheet, baked powder paint, or shot-blasted Corten steel. RAL letter colour painted finish. Its installation is simply supported on the pavement or foundation, although it has an anchoring system, using threaded rods, if extra fixation is required.

600 series is not just a planter collection, it also features the ability to connect all units together for biophilic integration. With unmatched customisation in colour finishes and layouts, the only limit to what can be created is the imagination.

# Modular Planters 600

Planter series in powder coated sheet metal.

Planter A: 600 x 600 x 600
Planter B: 1200 x 600 x 600
Planter C: 1200 x 1200 x 600
Planter D: 600 DIA x 600
Planter E: 1200 DIA x 600
Planter F: 1200 / 600 DIA x 600
Bench A: 600 x 500 x 450
Bench B: 1200 x 500 x 450

Material:
Structure of sheet metal with powder primer and powder coating; available in any RAL colour below, polyester-based paint, thicker than 80 microns (ISO 2630) and resistant to UV radiation or other climatic influences. Additional option in shotblasted Corten steel sheet.

Timber:
Wooden seat element of this product can be either Thermowood, Iroko or Accoya. With the option for these to be PEFC / FSC certified. All timber supplied planed all round with 4mm radius to all edges. A2 Stainless steel screws.

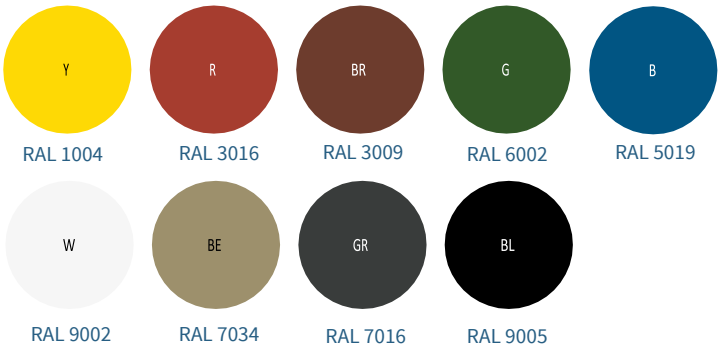

Installation: Self weight surface mounted

Maintenance:
Metal - Rinse thoroughly once every six months with a salt free wash and wax solution and polish with a soft clean cloth.
The powder coated finish should be inspected every 6 months for damage. Any areas where the surface finish has been compromised or removed should be cleaned of debris, and re-covered using touch up paint. Colour matched touch up paint can be purchased form Landmark or a local paint supplier. (colour ref in spec)

Timber - Manufactured entirely from carefully selected and graded hardwood. Sourced entirely from commercially managed, recognised and sustainable resources with a natural un-treated finish, to remove stains sand lightly with an appropriate grade sandpaper.

Check fixing connections every six months to ensure they are secure and tighten as required. The wooden seat can be replaced if necessary.
