The Stage Pergolas

Pergolas made from galvanised mild steel

Large: 3490mm (L) x 3420mm (W) x 2820mm (H)
Small: 2125mm (L) x 1195mm (W) x 2025mm (H)

Material:

Galvanised mild steel and powder coated
Timber from approved sources

Timber:

Wooden seat element of this product can be either of the timbers below. With the option for these to be PEFC / FSC certified. All timber supplied planed all round with 4mm radius to all edges. A2 Stainless steel screws.

Installation:

For the products installation, there are holes in the base for anchoring embedment bolts into concrete foundations laid by others. Insert 12mm threaded bolts into holes drilled into the concrete slabs and fill with epoxy resin or fast motor.

*Below are powder coating options for the galvanised metalwork only.

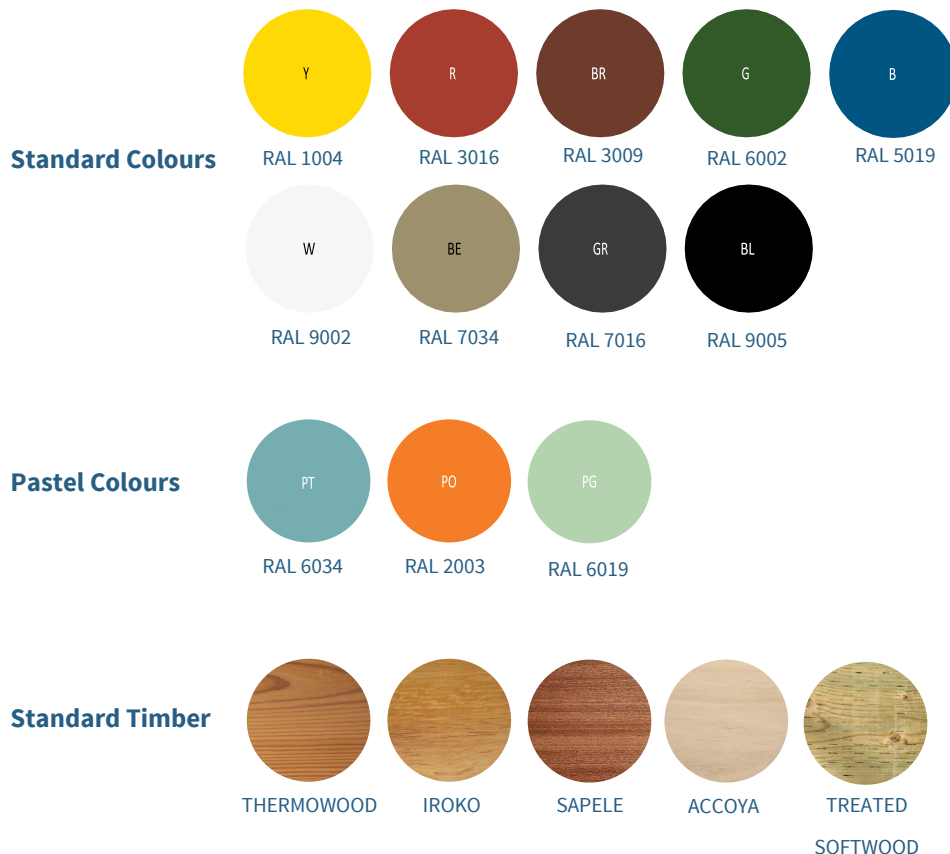

Maintenance:

Rinse thoroughly once every six months with a salt free wash and wax solution and polish with a soft clean cloth.

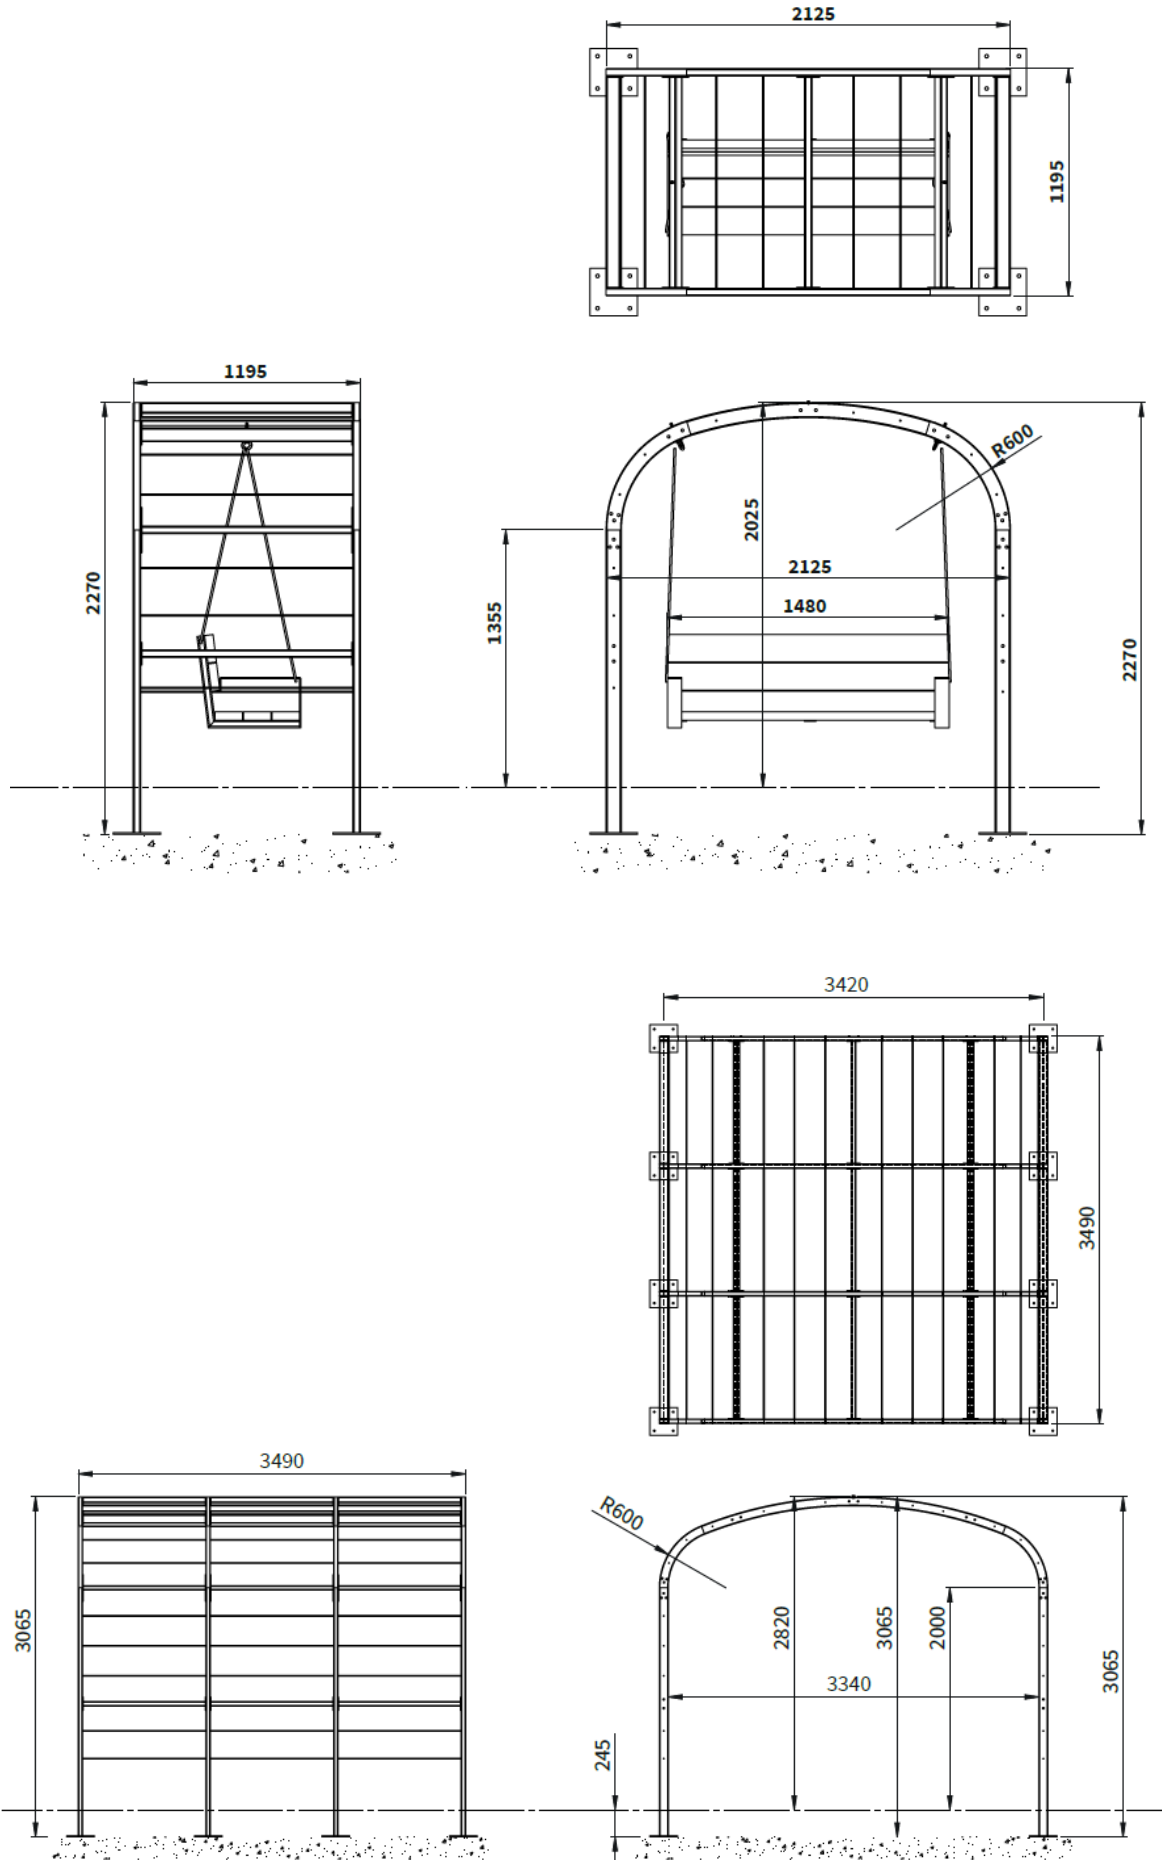

The powder coated finish should be inspected every 6 months for damage. Any areas where the surface finish has been compromised or removed should be cleaned of debris, and re-covered using touch up paint. Colour matched touch up paint can be purchased from Landmark or a local paint supplier. (colour ref in above spec)

Timber - Manufactured entirely from carefully selected and graded hardwood / softwood. Sourced entirely from commercially managed, recognised and sustainable resources with a natural un-treated finish, to remove stains sand lightly with an appropriate grade sandpaper.

Check fixing connections every six months to ensure they are secure and tighten as required.
